Name of Teacher	HO HOL YIN
Module	CS2040-Data Structures and Algorithms (LABORATORY)
Academic Year/Sem	2020/2021 - SEM 2
Department	COMPUTER SCIENCE
Faculty	SCHOOL OF COMPUTING

Raters	Student
Responded	18
Invited	27
Response Ratio	67%

Note:

Class Size = Invited; Response Size = Responded; Response Rate = Response Ratio

A. GUIDELINES FOR INTERPRETING THE REPORT

The teacher evaluation report is for developmental purposes and is meant to help identify strengths and areas for improvement. Please consider the following recommendations that will aid in interpreting the results:

1. Examine the report by taking note of patterns in order to consider how best to act on the feedback your students have taken the time to provide. Use the reflection section at the end to reflect upon how you might act on the feedback.
2. These evaluations stem from student perception and thus constitute one source of evidence among others as to the quality of your teaching. Any response to the feedback should be based on the most representative results rather than on outlying responses.
3. Upon getting a general sense as to what has gone well, and which areas may require attention and improvement, it is important to drill down to the related questions. These questions can help guide future action if feedback from students suggest areas for improvement.
4. Keep both the likert scale and written comments in mind while reading through the report. High scores (4+) suggest student consensus indicating a strength. On the other hand, low scores (2-) should be considered as an area that requires immediate developmental focus based on student feedback.

B. NOMINATION FOR TEACHING AWARDS

Response Count	
I would like to nominate HO HOL YIN for teaching awards	1

Comment
- Overall, a great communicator and caring teacher

D. STRENGTHS

What are HO HOL YIN's strengths?

Comments
Explains things very clearly and gives helpful feedback to students; I also appreciate the tips/common mistakes/advices he points out
he is cute :P
Okay seriously, he really pushes the weaker students to submit pseudocode to him. It is honestly quite torturous for me because I struggle to come up with pseudocode in 30 mins but because of his push I somehow deliver it (albeit not amazing pseudocode).
Hol Yin explained concepts well and facilitated independent thinking by asking thought-provoking questions during the lab sessions. He also gave useful feedback
Clear explanations and always tries to engage
he is helpful

E. AREAS FOR IMPROVEMENT

What improvements would you suggest to HO HOL YIN?

Comments
none

F. SELF-REFLECTION

1. When comparing these results to the previous year's results, what areas have shown improvement?
2. What areas remain to be improved and what are the necessary steps / actions to do so?
3. Are there colleagues who could potentially guide me?
4. Are there issues that require departmental or institutional support?
