## A. GUIDELINES FOR INTERPRETING THE REPORT

The teacher evaluation report is for developmental purposes and is meant to help identify strengths and areas for improvement. Please consider the following recommendations that will aid in interpreting the results:

1. Examine the report by taking note of patterns in order to consider how best to act on the feedback your students have taken the time to provide. Use the reflection section at the end to reflect upon how you might act on the feedback.
2. These evaluations stem from student perception and thus constitute one source of evidence among others as to the quality of your teaching. Any response to the feedback should be based on the most representative results rather than on outlying responses.
3. Upon getting a general sense as to what has gone well, and which areas may require attention and improvement, it is important to drill down to the related questions. These questions can help guide future action if feedback from students suggest areas for improvement.
4. Keep both the likert scale and written comments in mind while reading through the report. High scores (4+) suggest student consensus indicating a strength. On the other hand, low scores (2-) should be considered as an area that requires immediate developmental focus based on student feedback.

Comment
- He has a lot of passion in this subject matter and is able to translate it well to teaching us the content. He makes his own slides to recap on each week's topic and also adds his own input and explanation of the model answers. It is clear he puts in a lot of effort into being a TA and we greatly appreciate his efforts
- Very engaging and gives great examples to help with learning. Always very responsive to questions too.
- good at explaining things show thinking process instead of answers
- Approachable and patient.
- He is humorous, nice, patient.

E. AREAS FOR IMPROVEMENT

What improvements would you suggest to HO HOL YIN?

Comments
—
Maybe get acknowledgement from the class that they understand before moving on. Also, don't assume everyone is from JC :')

F. SELF-REFLECTION

1. When comparing these results to the previous year's results, what areas have shown improvement?
2. What areas remain to be improved and what are the necessary steps / actions to do so?
3. Are there colleagues who could potentially guide me?
4. Are there issues that require departmental or institutional support?
